# COMPANY PROFILE

FORMTECH INDUSTRIES has established in 2020. The promoters have vast experience in the field of Tube Mill Equipment's, Coil Slitting line, Rolling mill Equipment's, Cement plant equipment's, Crusher plant equipment, Steel equipment manufacturing, Design & development, Heavy Machine building fabrication.

We understand customer satisfaction is the key to success in this competitive scenario. And precisely, this is the area we feel we can beat the heat.

# INFRASTRUCTURE AND QUALITY

We have a modern manufacturing facility in the Faridabad, on the outskirts of New Delhi. Well-connected to major Indian highways, railways and airport, our plant is ideally located for expeditious procurement and delivery of raw material and final products. The unit is well equipped with the latest machinery and an assembly shop that has all modern machinery. All components that go into our machines are made out of best metals in our own facility. This ensures the quality of the parts and components and in turn the finished products. A team of highly experienced professionals who have vast experience in own their domain of functioning are in charge of the plant.

## MACHINE SHOP

Universal Milling Make – Rivolta, Italy Table size- 450X1250mm
Milling M1tr Make –Hercules
Radial drill m/c Make - Stanko, Canada
Lathe Machine Make – Batala, India
12' Hardened bed Lathe Machine Make – Batala, India
8' , hardened bed Lathe Machine Make – Batala, India
6' Hardened Bed Surface grinder Make – Sewak
Band saw – Up to 350mm Dia Make –Tannu Tools, India

## FABRICATION SHOP

CNC with Oxy Fuel & plasma Cutting Machine (Capacity for LPG 200mm, Plasma capacity up to 20mm) Make - CHINESE
MIG Welding Machine – 500 Amp. Make – Great Yuva, India
MIG Welding Machine – 400 Amp. Make – Weld Arc, Lincol
Welding Transformer – 400 Amp. Make- Great Yuva, India
PUG Cutting Machine Make – ESAB
Welding Rectifier – 415 Amp. Make –Great Yuva, India
Hand Cutting Set Make - ESAB

## INSPECTION INSTRUMENTS

Surface Table	1000mmX1500mm.
Height Gauge	800mm.
Vernier calliper	6"/12"/24".
Micro Meter	0-25/25-50/50-100/75-200/150-300mm.
Bore Gauge	Up to 200mm.
Thread Gauge Hardness Tester	HRC and BHN
Depth Vernier	6"

# PRODUCTS RANGE

- Coil slitting line, Cut to length, Entry line for Tube Mill machines.
- Funnel line, Grid assembly, conveyors, Rolling tables with various types of equipment's for Rolling Mill machines.
- Fabrication of Gear Boxes, Cement Plant equipment's, Crusher plant equipment's, Different types of tanks/pressure vessels, Equipment's for steel plant & various types of Heavy machine building fabricated parts.
- Fabrication of tower crane parts & various types of Earth-moving construction equipment's fabricated parts.

## FABRICATION FACILITIES

Formtech Industries offers an extensive range of in-house fabrication facilities for the fabrication of structural & plate up to any size & volume to provide custom-engineered products. We have a wide range of internal quality control procedures. This wide range of work can be accomplished within our 10800 sq. ft located in 45Km stone, Delhi Mathura Road, Village-Dundsa, Sikri-Palwal along with all modern facilities & machinery such as EOT Crane 7.5T capacity.

At our fabrication shop, we have wide range of ARC Welding Rectifiers, MIG & TIG welding sets and PUG Machines to cut material up to 300mm thickness and C.N.C. Cutting machines along with all kinds of fabrication tools & tackles are available with us.

We have experience in the fabrication of equipment's such as Tube mill equipment's, Rolling mill equipment's, Pressure Vessels, Turbine Building, Cement Plant Equipment's, Crusher plant Equipment's, Gear boxes, Steel Plant Equipment's, Heat Exchanger, Tanks & Other Heavy Machines Building Fabrication, etc.

In this highly competitive business, we never compromise in our quality standards. Customer satisfaction is our first aim which has attracted many challenging orders to us. From the engineering stage to the final phases of projects, our highly qualified employees are available to take on the most challenging projects. We have a good network of vendors to outsource the machining & fabrication if required to achieve targets in the stipulated time.

Formtech Industries has always firmly believed in the quality of its products and product support ever since its inception and this is the secret of our capacity to satisfy the customers. We look forward to meet the fast-growing and sometime unique needs of Indian & International markets. In a short span of Three years, we have successfully executed the following major complete Coil Slitting Line, Tube Mill plant and Rolling Mill Plant, along with major fabrication jobs.
